Projects

Room Finder: Skills – React.js, Node.js, Express.js and Mongo DB

[Link](#)

- Developed **Room Finder**, an intuitive platform allowing users to search, filter, and list rental properties, simplifying the process of finding accommodations.
- Designed and developed responsive **React.js** components with dynamic routing, offering a seamless and user-friendly experience across devices.
- Implemented backend services using **Express.js** and integrated **APIs**, with deployment on Vercel, enabling features like property management, user authentication, and real-time data updates.

Workisy - Comprehensive Hiring Platform: Skills – React.js, Node.js, Express.js and Mongo DB

[Link](#)

- Developed Workisy, a comprehensive hiring platform enabling employers to post jobs, search candidates, and manage recruitment efficiently, while providing employees with tools to apply and track opportunities.
- Engineered reusable React.js components with dynamic routing and responsive layouts, ensuring seamless navigation and accessibility across devices.
- Integrated APIs and deployed on Vercel, delivering real-time functionalities such as authentication, job reporting, and data exchange for a streamlined user experience.

Climatology Summit :Skills – React.js, Node.js, Express.js and Mongo DB

[Link](#)

- Designed and developed the official website for the Climatology Summit, showcasing event details, sessions, and speakers with a visually appealing and responsive layout.
- Implemented interactive features using **React.js**, enhancing user engagement through dynamic navigation, session highlights, and real-time updates.
- Deployed on Vercel to ensure fast performance and seamless access for a global audience, aligning with the summit's mission to promote awareness and collaboration on climate change.

Skills

Languages: JavaScript, HTML, Java

Tools: React.js, Node.js, MySQL, CSS, Material UI, Tailwind CSS, Git, GitHub, Figma, Adobe Photoshop, MongoDB

Platforms: Visual Studio Code, IntelliJ IDEA, Eclipse IDE

Soft Skills: Time Management, Project Management, Adaptability to New Technologies, Teamwork, Flexibility

Experience

Full Stack Developer Intern

Aug 2024 - Dec 2024

APPIT Software Solutions

Hyderabad, Telangana

- Designed and developed full-stack web applications using React.js, Material UI, and CSS for the frontend, and Node.js with Express.js for backend services.
- Integrated MongoDB for efficient data storage and retrieval, ensuring scalable and maintainable application architecture.
- Played a key role in delivering high-impact projects, including the Workisy hiring platform and the Climate Summit 2024 website, while strengthening skills in modern web technologies and cross-functional collaboration.

Education

- Maulana Azad national Urdu University, Hyderabad**
B. tech in Computer Science with “**A+**” Grade (Lateral Entry)
- MANUU Polytechnic, Bangalore**
Diploma in Computer Science & engineering with “**O**” Grade

2021-2024

Hyderabad, Telangana

2018 - 2021

Bangalore, Karnataka

ACHIEVEMENTS

- Letter of Appreciation** | Speaker | *Department of CS&IT* Nov 2022
Received an appreciation certificate for conducting a session on Photoshop during the student induction program.
- Letter of Appreciation** | Technical Team Member | *Department of CS&IT* Dec 2023
During the 8th international RICE 2023 (Research in Intelligent Computing in Engineering), I volunteered in the technical team on December 1st and 2nd.
